

## **VICE PRESIDENT OF ACADEMICS MANIFESTO 2016-2017**

### **MR. ARON GALLIMORE**

#### **WHO AM I?**

My name is Aron Gallimore, I am a 2nd year Environmental Science student and I am running for the position of Vice President of Academic Administration. I am a firmer believer in being deliberate in ones actions as I love to see a task being carried out and completed with one hundred percent (100%) success. I believe that there's no better objective greater than giving your all in every situation. Here's what I know for sure a chain is as strong as its weakest link thus to allow the increase in efficiency of academia at Northern Caribbean University it will require the unity of its students with its administrative body.

#### **MY AIM**

My aim is for all **OUR** students is to improve networking, skill sets and application of knowledge by ensuring all students feel comfortable, confident and involved in their education all the way. I want to change the attitude of the Academic Administration of the United Student Movement from what some perceive as an alien organization to **OUR** organization.

#### **PROPOSAL OF PLANS AND PROJECTIONS**

- Promote better feedback between lecturers and students through a Research Shadow Project. This would allow students to shadow lecturers as to impart knowledge and skill sets.
- Increase cooperation between academic clubs and their departments.
- Promote the separation of module classes from full time classes.
- Promote togetherness on the campus to assist with networking through social activities such as Spelling Bees, Debates and other innovative projects.
- Promote a Site Visit Program in which students go to organizations to see where there jobs are applicable in the said organization as well as meet with professionals from the company and learn about career paths and opportunities within the field.
- Organize a health awareness chapel meeting.
- Promote a 5k run in which the proceeds go towards funding of students.
- Have talk back sessions with colleges to understand and address their social and academic issues.

- Promote a joint departmental competition to allow coordination of students in different fields .
- Start a back to school drive.
- Promote a college day in which the college taking part will showcase its department's skills and assets in unique ways.
- Organize a cleanup day.
- Visit all age homes to help students understand social affairs.
