

Manifesto – Janelle Haye

With age comes experience and experience teaches wisdom. Within the numerous years of selfless leadership that I have undergone prior to and during my tenure at Northern Caribbean University I have gained much experience. This experience has indeed taught wisdom, along with those garnered from the persons with whom I interact. It is this experience and wisdom I bring to the table my visions that will propel Northern Caribbean University forward into greatness.

My tenure in office as Vice President of Finance and Planning would not only see me impacting current students but students to come as I intend to continue the legacy while forging and innovative path into the future.

As a third year accounting student I believe that my knowledge in this field qualifies me to take on the initiative to attain the following goals that will indeed have a positive impact:

1. Improvement of the United Student Movement's scholarship and grant program by developing the International Student Leader Scholarship, increasing the amount allocated to the Nurses' Scholarship and Grant Fund and offering a Practicum Voucher to Teacher Education students.
2. The formulation of a lasting partnership with a grocery store(s) within the Mandeville region that would see students benefitting from discounts when purchasing.
3. A revamping of the United Student Movement's investment portfolio – having the students' money can work for them. This will be achieved through fund raising events that will see the proceeds going towards investment in government bonds and company stocks.

Manifesto – Janelle Haye

4. Providing students with the opportunity to be more entrepreneurial in their thinking by establishing seminars geared towards their increased knowledge of entrepreneurship and the world of business.

My dream for this post is not only to continue what is left behind but to innovate so that all students both present and future will benefit.
